NATURAL SMILE

ONE SMILE CAN CHANGE EVERYTHING

Health Türkiye

FROM THE INDIVIDUAL, TO THE WHOLE

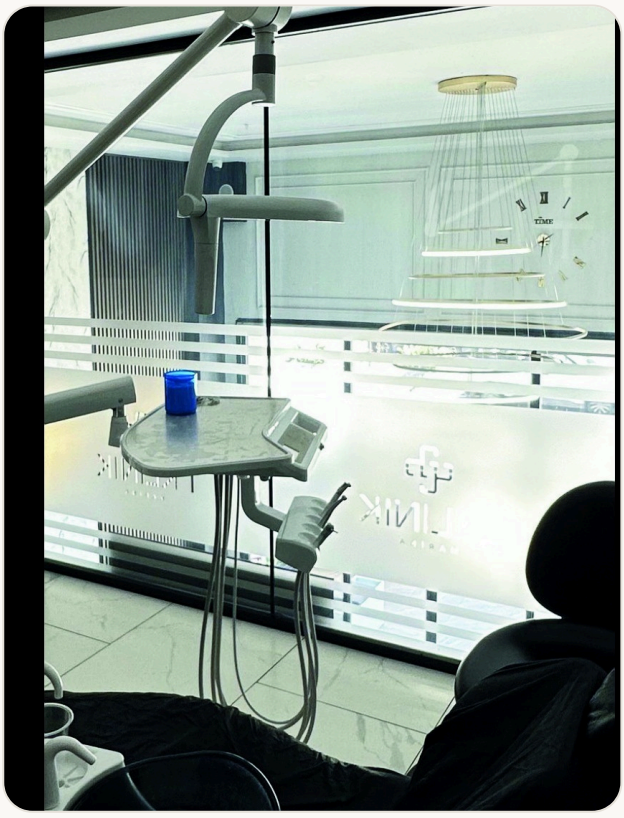

…because every smile is personal

İ Klinik was born from a promise: to bring trustworthy, professional dentistry of the highest quality first to our own community, and then to everyone who walks through our doors. The letter I in our name stands for the individual, because caring for one person well is how you earn the right to care for many.

Today there are **six İ Klinik clinics across Türkiye**: Istanbul Marina, Ankara, Gaziantep, Datça, Malatya and Iğdır, all working to one standard. In these pages: our Istanbul flagship, the people who treat you, the treatments, the laboratory where your new teeth are made, and the road from your first photo to your final check-up near home.

welcome to the marina . . .

ISTANBUL

PART I · THE CLINIC

The Istanbul flagship of six İ Klinik clinics across Türkiye: a calm, considered space on the West Istanbul Marina waterfront. Every case is planned by the treating dentist in person, on 3D tomography and digital scans taken on site, and your records live in one file from first message to final check.

LOCATION	West Istanbul Marina
PLANNING	3D CBCT · digital scans, on site
CLINICS	Six across Türkiye, one protocol

ISTANBUL MARINA · ANKARA · GAZIANTEP · DATÇA · MALATYA · IĞDIR

DESIGNED AROUND CALM

THE TREATMENT SUITE

One room, one chair. Glass-walled, daylight-filled rooms with current-generation chairs, intraoral scanners and ceiling-mounted imaging: examination, planning and treatment happen in the same seat.

Sterilisation as a department. Sealed instrument cycles and single-use materials, logged for every single patient.

ROOMS	Daylight · glass-walled
IMAGING	In the chair, ceiling-mounted
HYGIENE	Sealed cycles, logged

MEET YOUR DENTISTS

Dr Seher Ghareek

DENTIST · AESTHETIC DENTISTRY

Altınbaş University, Istanbul

With five years of clinical experience, Dr Ghareek's work combines smile design, aesthetic composite restorations, veneers, zirconia crowns and facial aesthetic treatments, including dermal fillers. She approaches each case individually, aiming for natural-looking results that complement a patient's features rather than change them. Fluent in English, Turkish, Persian (Dari) and Urdu, she puts an international patient base at ease, making sure every patient feels understood and well informed throughout their treatment.

SMILE DESIGN · COMPOSITE & VENEERS · ZIRCONIA · FACIAL AESTHETICS

Every İ Klinik dentist performs implant surgery and the full range of restorative treatment, from single implants and All-on-4 / All-on-6 to veneers, crowns and full-mouth restoration. Your case is matched to the dentist whose focus fits it best.

SURGERY & RESTORATIVE

Dr Levent Akkoyun

DENTIST · IMPLANT & FULL-ARCH SURGERY

İnönü University, Faculty of Dentistry

Dr Akkoyun performs the group's implant and full-arch surgery, along with advanced bone and sinus procedures for patients told they have “too little bone”. He operates under magnification, and every case is planned on 3D tomography before surgery day: careful preparation, shorter operations, quieter recoveries.

IMPLANTS · ALL-ON-4 / 6 · BONE & SINUS SURGERY

Dr Mehmet Şerif Kabukara

DENTIST · RESTORATIVE & SMILE DESIGN

Sağlık Bilimleri Üniversitesi, Istanbul

Before joining the Istanbul flagship, Dr Kabukara ran İ Klinik's Datça clinic as director and treating dentist. Laminates and bonding, zirconia crowns, advanced root canal work, and consultations that begin with listening: nothing happens in his chair before it has been explained.

SMILE DESIGN · ZIRCONIA · ROOT CANAL

Every İ Klinik dentist performs implant surgery and the full range of restorative treatment, from single implants and All-on-4 / All-on-6 to veneers, crowns and full-mouth restoration. Your case is matched to the dentist whose focus fits it best.

THE FOUNDING TEAM

Dr Ömer Faruk Aslan

DENTIST · FOUNDER

Gaziantep University, Faculty of Dentistry

As founder, Dr Aslan shaped İ Klinik around a simple conviction: international patients deserve the same continuity of care as those living five minutes away. He leads the UK programme, with broad clinical experience across implant surgery, endodontics and smile design, and one rule that never bends: every UK patient is met face to face.

FOUNDER · LEADS THE UK PROGRAMME

YOUR UK TEAM

YOUR TEAM IN THE UNITED KINGDOM

Zeynep Aslan

UK PATIENT COORDINATOR · SOFTWARE ENGINEER · CEO, CRAFTOPIQ

A software engineer and CEO of Craftopiq, Ms Aslan develops the clinic's software systems and leads its social media and advertising. She also looks after our patients in the United Kingdom, guiding each one from first enquiry to final review, with a written plan at every step.

SOFTWARE & SYSTEMS · SOCIAL MEDIA · UK PATIENTS

THE CARE TEAM

Eda Akkuş

CLINICAL ASSISTANT

Ms Akkuş works chairside in true four-handed style, anticipating each instrument before it's needed. Between steps she checks you're comfortable and tells you, plainly, what happens next.

FOUR-HANDED CARE · COMFORT CHECKS

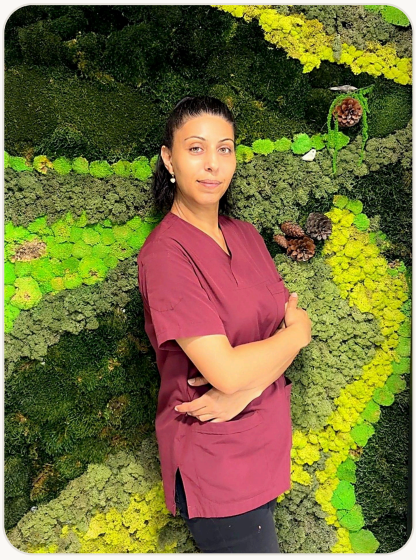

Tuğçe Palancı

CLINICAL ASSISTANT

Every room Ms Palancı prepares tells the same quiet story: sealed sterile sets counted and logged, imaging ready before you sit down, nothing left to chance.

STERILE PROTOCOL · ROOM PREPARATION

Sevgi Yalçınkaya

CLINIC TEAM

Ms Yalçınkaya keeps the day running smoothly: welcoming patients, preparing what each appointment needs, and making sure nobody ever waits without knowing why.

PATIENT CARE · DAILY FLOW

your people in Istanbul...

ALWAYS BY YOUR SIDE

Dentists, technicians, assistants and your coordinator: one team around every patient, from first photo to final review.

II PART TWO

THE TREATMENTS

A natural smile is a quiet thing. It doesn't announce itself; it simply stops hiding: in photographs no longer avoided, in laughter no longer edited, in hellos that arrive a heartbeat sooner. It is, and has always been, the point of everything we make.

01 LAMINATE VENEERS

WE COME TO YOU

HARROGATE · NEWCASTLE · MANCHESTER · MILTON KEYNES · LONDON

İ KLINIK IN THE UNITED KINGDOM

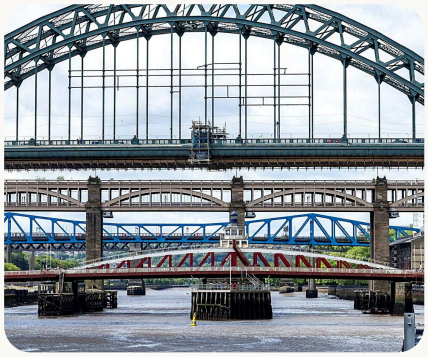

TWICE A MONTH, EVERY MONTH

We hold meet-ups in the UK twice a month. Sit down with our clinical team close to home: bring your X-rays, have them reviewed, and leave with a written treatment plan and honest answers. No obligation, no charge.

Harrogate

North Yorkshire. Our regular meeting point for patients across the north.

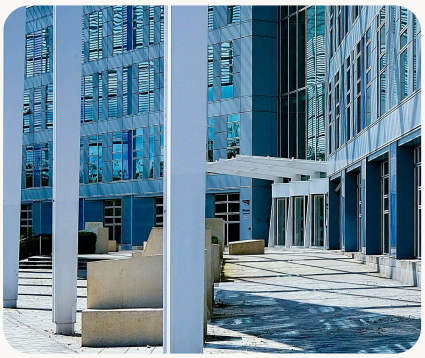

Newcastle

On the Tyne. Assessments, plan reviews and aftercare checks.

Manchester

The north-west. Consultation days for patients across the region.

Milton Keynes

The Midlands. Easy to reach from across central England.

London

The capital. Regular consultation and review days.

AND BEYOND

More cities each season

We add new regions across the UK as our patient community grows. Message us and we will tell you when we are next near you.

Bring your X-rays. Leave with a written plan and honest answers.

Ask when we are next near you
